SUMMARY

Computer Science Engineering student with hands-on knowledge of Python, Java, and SQL, with a strong interest in Artificial Intelligence and Machine Learning.
Skilled in problem-solving, teamwork, and developing software solutions through academic and personal projects. Seeking internship opportunities to apply technical skills, gain industry experience and contribute to real-world projects.

EDUCATION

Galgotias University | Greater Noida, UP **GPA: 7.96/10.00**

Bachelor of Technology (Computer Science)

Kendriya Vidyalaya Air Force Station Bareilly **Score: 85.5%**

Senior Secondary Education (XII)

TECHNICAL SKILLS

Languages: Python, Java, SQL, C++
Frameworks/Libraries: JVM, JDBC, NumPy, Pandas, Matplotlib
Databases/Cloud: MySQL, SQL Database Fundamentals
Tools: Git, GitHub, VS Code, Jupyter Notebook, MS Office
Concepts: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), Database Management Systems (DBMS), Operating Systems, Computer Networks
Soft Skills: Communication, Adaptability, Problem Solving, Collaboration, Logical Reasoning

PROJECTS

UPI Fraud Detection Dashboard | Python, SQL, Machine Learning, Streamlit
• Developed an interactive fraud detection dashboard to analyze UPI transactions and identify potentially fraudulent patterns using machine learning techniques.
• Performed data preprocessing, feature analysis, and model evaluation to classify transactions as legitimate or potentially fraudulent.
• Built visualizations and risk insights to support transaction monitoring and improve fraud detection analysis.

Text-to-SQL with Classification Engine | Python, NLP, SQL, Machine Learning
• Developed a natural-language interface that converts user queries into SQL statements for structured database interaction. • Implemented a classification engine to identify query intent and route requests to appropriate processing workflows. • Integrated query validation and result generation to enable efficient database access through natural-language queries.

CERTIFICATIONS

AI & Machine Learning Workshop – Participation Certificate | 5 Hours
Artificial Intelligence Awareness Workshop – Participation Certificate | 5 Hours

ACHIEVEMENTS

• Maintained a GPA of 7.96/10.00 while actively participating in technical learning activities.
• Continuously enhancing programming and problem-solving skills through coding practice and academic coursework.
• Actively learning emerging technologies such as Artificial Intelligence and Machine Learning.
